Not Keen ow Ramming.

As an interlude, all the enemy cruisers that night were not keen on ramming. They wanted to get home. A man I know who was on another part of the drive saw a covey bolt throughout dearroyers, and had just settled himself for a shot at one of them when the night threw up a second bird coming sold barry will speed on his other beam. Saw Torpedo Explode

Another destroyer who had borne a band in the Gehenna's trouble had her try at the four battleships and got in a torpedo at 800 yards. She saw it explode and a ship take a heavy list—"then I was chased," which is not surprising. She picked up a friend who could only do twenty knots and they sighted several Hun destroyers who fied from them. Then they described and from them. Then they dropped onto four Hun destroyers all together who made a great parade of commencing action, but soon afterward "thought better of it and turned away."

So, you see, in that flottlia alone there

was every variety of fight, from the ordered attacks of squadrons under the control of a single ship to affairs every turn of which depended on the instant decision of the men concerned, on en-durance to the hopeless end, bluff and cunning, reckless advance and red hot flight, clear vision and as much of blank bewilderment us the Senior Service per-mits its children to indulge in—and that is not much. When a destroyer who has been doging enemy torpedoes and gun fire in the dark realizes about midnight that she is "following a strange British flotilia, having lost sight of my own," she "decides to remain with them" and shares their fortunes and the next day after an unchecked night among the wild life of the dark, they would talk much as our destroyers do.

JERSEY DEMOCRATS BECOMING FEARFUL

Chairman Bugbee Says Party Vote Will Be Cast for Whole Ticket.

One of the most felling features of the Republican campaign in New Jersey and one that is giving most annoyance to Democratic politicians, who are watchfully waiting in the President's home State, is the way in which leaders among the Progressives are working shoulder to shoulder with the Republican State Committee in behalf of the entire ticket. The harmony programme that is being carried out has amuzed the Democrats, who long ago realized that Mr. Wilson would have the tree of the committee of the comm would have to have Progressive Republican support to a large degree if he car-ried New Jersey, and the most optimistic among them are now fearful, down in their hearts, that he will get but a very HUGHES STILL 10 TO 8

STOKES HELPS CAMPAIGN

Concerning everything that is done, and they are developing much team work.
Further evidence that all is harmony between the erstwhile Republican factions in New Jersey is the manner in which those Republicans who were defeated for nominations at the primaries on September 26 are now working for the successful candidates, notably Col. Austen Colgate and George L. Record, who lost to State Senator Walter E. Edge of Atlantic county in the contest

The primary battle between Edge and Colgate was a particularly vigorous one, and the Democrats were hopeful that a soreness would be left behind that would result favorably to them, but Colgate's speedy and hearty indorsement of Edge.

We real very confident of he election of the Republican ticket. State than of the Republican ticket. State Chairman Bughes said to a Sex man. The party vote in the State will be east with very few defections for the whole ticket. New Jersey is Republican under normal conditions by at least 30,000 in Othernatorial elections and from 50,000 to 75,000 in Presidential campaigns, and in this campaign I feel that it is almost impossible for the Democratic party to score a success.

Correct TELEPHONE Habits

Bring you better Telephone Service

THE following suggestions are published at the request of a number of large business houses that are interested in developing pleasing telephone manners among their employees:

On all OUTGOING Calls

ALWAYS look in the telephone book to make sure you call the right number. If you do not find the number in the book, ask "Information."

CALL your number with a slight pause between the hundreds and the tens. For example, in calling "Barclay 1263," say,"Barclay One Two (pause) Six Three."

SPEAK clearly and distinctly, directly into the transmitter.

LISTEN to the operator's repetition of the number and acknowledge it.

HOLD the line until your party answers and then give your whole attention to the telephone conversation.

To RECALL the operator, move the receiver hook up and down slowly.

WHEN you have finished talking, say "Good-bye" and replace the receiver on the hook.

REMEMBER, courtesy over the telephone is always desirable. It wins friends for you and your company.

On all Incoming Calls

Answer your telephone promptly and pleasantly.

Announce.vour name and the name of your department. Don't say "Hello."

BE READY with pad and pencil in order not to keep your caller waiting.

IF YOU require help in handling the call properly, get it at once or politely transfer the call to the employee who can best handle it.

IF YOU answer for another employee, offer to take the message, then call it to the other's attention at the first opportunity.

LISTEN attentively, so that you will not have to annoy the caller by asking him to repeat.

REMEMBER, abruptness or indifference drives away trade. Close attention to telephone orders helps win it.

MAINTAIN the same courtesy and consideration in a telephone conversation that you would with your customer face to face.

The voice with the smile wins
